Best Practice-I

Title: *Continuous Enhancement of Research Activities*

Objectives of the Practice

We at VISTAS seeks to create and transmit knowledge through quality research for the benefit of the society, nation and the world. In order to quantify the outcomes, the following deliverables are to be generated continuously:

- 1 Research Projects for generation, extension and augmentation of knowledge.
1. Research Publications in prestigious journals
2. Patents as generation of new knowledge
3. Technology Transfer for meeting societal needs and application to real life problems
4. Consultancy services from government and non-government agencies

Context (Goal)

- To motivate students and faculty members to actively participate in research in their field of interest resulting in publications, product/system development, process innovation leading to patenting.
- To put a system in place to guide the faculty to prepare and submit proposals for funding from external agencies.
- To encourage faculty to enhance their qualification so that, every department has large percentage of Doctoral degree holders.

Challenges

In Research oriented Universities, knowledge creation is as important as that of knowledge transfer. It could be achieved, only by enabling the researchers to stay focused on their core work with a support system helping them to acquire the necessary funding, to procure the required facilities and dedicate adequate time for their research activities. In this context, the support system should also provide guidance for the researchers in preparing suitable project proposals. Since financial support is not available from the Government for Deemed-to-be Universities, Management should allocate sufficient budget to set up research facilities. Management allocated Seed Money Projects and Fund for Mini Projects for Faculty members to carry out the research work.

The Practice

A Center for Advanced Research and Development (CARD) has been constituted thus establishing a research ambience that facilitates the development of new creative research areas of Global importance in SE, VISTAS.

The following research facilities are established in School of Engineering, worth Rs. 9 crores.

Central Instrumentation Lab:

Owing to the overwhelming response from the research community, by 2019, the centre has been equipped with additional high end sophisticated instrumentations such as Scanning Electron Microscope, Confocal Raman imaging and spectroscopy, Atomic Force Microscopy (AFM), Thermogravimetric Analyzer (TGA), Differential Scanning Calorimeter (DSC), Electrochemical workstation, Contact angle meter, Real time polymerase chain reaction (RTPCR), UV-Visible spectrophotometer and Fourier Transform-Infra Red Spectroscopy (FT-IR) including Attenuated Total Reflectance (ATR) and Diffused Reflectance Spectroscopy (DRS) modes. Besides the Research scholars of VISTAS, Research scholars of nearby Universities are also using the equipments at Central Instrumentation lab. Many Government, Non Government agencies and universities utilizing out Central Instrumentation facilities for their research work.

Centre for Energy and Alternative Fuels (CEAF) has been established in Feb' 2017 at VISTAS to promote multidisciplinary activities focused on various aspects of energy technology and systems in the form of research, teaching and consultancy. As the budding research centre, the present research activities in the centre are in the form of projects based research funded by various national funding agencies and Industries. By looking into the potential and application of different energy resources from the southern region of India, it is emphasized that the centre gives priority to activities in the field of energy storage systems such as batteries and super capacitors, microbial fuel cells, bio-sensors, alternative fuels and Efficiency of the energy systems etc.

The following research facilities are also available for 360 full time research scholars and 600 part-time research scholars, guided by 194 experienced research oriented faculty members.

1. Center for Artificial Intelligence

2. Center for IOT Safety and Health Care
3. Center for Material Research
4. Center for Fish immunology

The activities pursued are:

- Identification of potential researchers from the centers.
- Encouraging them to plan and prepare proposals in the field of their interest in each Center
- Examining the proposals for its current relevance in all the above centers in knowledge creation, innovation and societal benefit.
- Providing Seed money to convert innovative ideas into positive research outputs.
- Researchers who have submitted proposals showing promising outcomes are guided to prepare detailed proposals.
- Proposals are examined thoroughly and if Projects requiring substantial additional funding for creation of new facilities. If the project does not require additional facilities, researchers concerned are encouraged to start the work immediately for which necessary guidance and monitoring is provided. The proposals are vetted by the experts.
- Faculty with PhD qualification and rich research experience are recruited regularly. 30% of teaching staff are holding PhD degree. Remaining teaching staff are motivated with fee concession to pursue PhD program.
- Full time Research scholars are provided with “Vels Research Fellowship”.
- Financial support is provided for publishing articles in Peer reviewed journals.
- Departments are encouraged to conduct Seminars/Conferences periodically on emerging areas of research. With financial support, Faculty members are motivated to present their research in International Conferences.
- Filing of patents is facilitated by the Centre for Intellectual Property Rights, for the inventions and designs developed in the projects taken up by the faculty members and students. The Centre provides complete support in terms of running a patent search, conduct of patentability meetings with external members and also in Drafting and submission of patent applications.

Best Practice-II:

Title: ***Institute Industry interaction***

Objective of the Practice

To enable the Undergraduate and Postgraduate students of VISTAS employable in the Industries and to develop enough skill to start their own business.

Context

Higher Education Institutes(HEI) in India are producing increasing number of graduates and postgraduates. Their skills do not match with the expectations of Industries. Better interaction between institutions and industries is the need of the hour to close the gap between the expectation and availability. This will have great bearing on the design & development of curriculum. Exposure of industrial atmosphere to students will enhance the subsequent placement of young graduating students in industries across the country. Also, there is an urgent need to prepare the students for jobs in multinational companies, by exposing them to newer technologies and methodologies

Challenges:

The Challenging issues that needed to be addressed in designing and implementing this practice are listed below:

- Industries do not want to spend their resources on training the students
- Industries do not allocate enough budget for in-house R&D
- Industries prefer to import and market the products instead of manufacturing the products.
- Training the faculty to teach courses relevant to Industries
- Introduction of new courses due to obsolescence in engineering products.
- Absence of aptitude to industry related modern courses

The Practice

VISTAS has signed MoU with large number of Industries. For each MoU, a Single Point of Contact(SPOC) is identified and the goals of MoU are realized. The progress of the activities are monitored by IQAC periodically.

Details of Institute Industry Interaction are listed below:

- Students of VISTAS can undertake the final year projects with a joint supervisor from the industry
- Experts from Industry participate in curriculum design which plays a significant role in preparing the students ready for industries
- Establishment of VISTAS-Industry Partnership /interaction Cell.
- Arranging visits of student and staff member to various industries.
- Professional consultancy by the faculty to industries.
- Testing of industrial prototypes by faculty at VISTAS laboratory.
- Collaborative Degree Programs.
- Industrial problems for research.
- Employees of Industries pursuing Ph.D. program at VISTAS
- Short-term assignment to faculty members in industries.
- Visiting faculty/professors from industries.
- Professorial Chairs sponsored by industries at the Institute.
- R&D Laboratories sponsored by industries at the Institute.
- Scholarships/fellowships instituted by industries at the Institute for students.
- Collaborative research
- Organizing symposia and workshops with joint participation of faculty and industrial experts

For example interaction is intense with the following agencies and industries:

IBM, a US computer, technology and IT consulting corporation interact with Department of Computer Science and Engineering

EinNel Technologies – Research & Development Centre is an engineering solution provider in the field of Automotive, Aerospace, Energy, Oil & Gas, Bioscience and Computer Science

Best Practice-III

Title: *Societal contributions through outreach and extension programs*

Objectives of the Practice

- To be a partner in progress of ‘Surging India’ by actively engaging in the development process of the nearby community through monetary and voluntary support.
- To undertake outreach and extension programs in the locality in and around university for contributing to improvement in economic, health, education and social conditions of the local people.

Practices towards Women Empowerment

School of Engineering is always keen on empowering the women and making them self-sustainable. The International Women’s Day is being celebrated every year and those women who have been successful in life have been honoured

- Every year VISTAS has arranged one day market for Self-Help Group products and a training on Marketing.
- VISTAS has conducted a workshop on Gender Based Violence with the funding from association of Common Wealth Universities. Ms. Smrithi Irani ,Union Minister for Textiles presided over the event. Women from Local community were sensitized on this very important issue.
- VISTAS has conducted Self-defense training programme for the safety and security of Women.

F.No- 33-308/2014-NBA

Date: 04-03-2020

To
The Vice Chancellor
Vels Institute of Science,
Technology and Advanced Studies(VISTAS),
Vels University, Velan Nagar,
P.V.Vaithiyalingam Road, Pallavaram,
Chennai- 600 117, Tamil Nadu

Subject: Accreditation status of programs applied by Vels Institute of Science, Technology and Advanced Studies(VISTAS), Vels University, Velan Nagar, P.V.Vaithiyalingam Road, Pallavaram, Chennai- 600 117, Tamil Nadu.

Sir,

This has reference to your application I.D. No. 3054-24/07/2018 seeking accreditation by National Board of Accreditation in Tier-I format to UG Engineering programs offered by **Vels Institute of Science, Technology and Advanced Studies(VISTAS), Vels University, Velan Nagar, P.V.Vaithiyalingam Road, Pallavaram, Chennai- 600 117, Tamil Nadu.**

2. An Expert Team conducted on-site evaluation of the programs from 3rd to 5th January, 2020. The report submitted by the Expert Team was considered by the concerned Committees constituted for the purpose in NBA. The competent authority in NBA has approved the following accreditation status to the programs as given in the table below:

Sl. No.	Name of the Program(s) (UG)	Basis of Evaluation	Accreditation Status	Period of validity	Remarks
(1)	(2)	(3)	(4)	(5)	(6)
1.	Mechanical Engineering	Tier-I	Accredited	Academic Years 2020-2021 to 2022-2023 i.e. upto 30-06-2023	Accreditation status granted is valid for the period indicated in Col.5 or till the program has the approval of the competent authority, whichever is earlier
2.	Computer Science & Engineering		Accredited		

3. It may be noted that only students who graduate during the validity period of accreditation, will be deemed to have graduated with an NBA accredited degree.

4. The programs have been granted accreditation for 3 years. **Vels Institute of Science, Technology and Advanced Studies(VISTAS), Vels University, Velan Nagar, P.V.Vaithiyalingam Road, Pallavaram, Chennai- 600 117, Tamil Nadu** should submit the Compliance Report at least six months before the expiry of validity of accreditation mentioned above to be eligible to be considered by the concerned Committee in NBA for further processing of the accreditation status. This could entail further extension of accreditation or a visit, as deemed appropriate by NBA Committees.

5. The accreditation status awarded to the programs as indicated in the above table does not imply that the accreditation has been granted to **Vels Institute of Science, Technology and Advanced Studies(VISTAS), Vels University, Velan Nagar, P.V.Vaithiyalingam Road, Pallavaram, Chennai- 600 117, Tamil Nadu** as a whole. **As such the Institution should nowhere along with its name including on its letter head etc. write that it is accredited by NBA because it is program accreditation and not Institution accreditation. If such an instance comes to NBA's notice, this will be viewed seriously.** Complete name of the program(s) accredited, level of program(s) and the period of validity of accreditation, as well as the Academic Year from which the accreditation is effective should be mentioned unambiguously whenever and wherever it is required to indicate the status of accreditation by NBA.

Contd./...

6. The accreditation status of the above programs is subject to change on periodic review, if needed by the NBA. It is desired that the relevant information in respect of accredited programs as indicated in the table in paragraph 2, appears on the website and information bulletin of the Institute.

7. The accreditation status awarded to the programs as indicated in table in paragraph 2 above is subject to maintenance of the current standards during the period of accreditation. If there are any changes in the status (major changes of faculty strength, organizational structure etc.), the same are required to be communicated to the NBA, with an appropriate explanatory note.

8. A copy each of the Report of Chairman of the Visiting Team and Evaluators' Reports in respect of the above programs is enclosed.

9. If the Institute is not satisfied with the decision of NBA, it may appeal within thirty days of receipt of this communication giving reasons for the same and by paying the requisite fee.

Yours faithfully,

(Dr. Anil Kumar Nassa)
